

**JEFFERSON AND BROWN'S** TURNER ROAD.—The following officers were elected to the above office:  
President—J. B. Gray, Jr., D. W. C. Williams, Geo. E. Gray, Jr., L. Young, and Robert E. E. E.

It will be seen from a notice in our advertising column, to which we invite the attention of all who have any business with the company, that the company is now open for business as usual.

**THE CITY CHARTER.**—It will be seen that the city charter, proposed by the Council, was defeated on Saturday by an overwhelming majority. Undoubtedly there were considerable reasons for this, but we regard it on the whole as a decided improvement upon the old charter.

The vote which we give below was as follows:

For, Against,

Majority against the charter 1,095.

**RIVER AND STEAMBOAT MATTERS.**

The harbor was clear of ice night before last and yesterday morning, but about 5 o'clock last evening the gorge at the Six-Mile Island gap, and the ice in it covered the entire breadth of the river. A portion went over the falls, but a heavy mass of ice was left on the river and lodged in front of the city.

It extended from the head-end to the foot of Fifth street, was very thick. The Jeffersonville ferry-boat, which was stuck in the ice, was taken out of the island, where it remains unable to get out. The ice sank a coal boat, containing about 2,000 bushels, belonging to Mr. Leaser, and an empty barge, belonging to Messrs. Hyatt & Co. The latter hole in the mail line wharf-boat, which was also sunk, though it was raised.

We are informed that the new steamer Ochs, lying at the foot of Sixth street, was damaged by the ice, but to what extent we do not learn.

The boats at Portland are evidently secure, as the current is on the Indiana side.

The river was rising steadily this morning. Last evening it was about at a stand with 6 feet of water in the canal.

We have no news from below. A report was current on Saturday that the steamer Ochs had got up to within fifteen miles of Portland, but we could trace it to no reliable source and believe it to have been unfounded.

No boats have yet returned, and none have been expected. The Wm. Martin, Rainbow, W. H. Dixon, and James Montgomery, and Henry J. King are advertised to leave this evening. The Gov. Powell will remain here for a few days.

The latest news from above is given in our dispatches.

The weather for the past two days has been very pleasant, and it has been thawing.

At night it froze again, but the ice was not so thick as yesterday.

The St. Louis Republic of Friday says: The river was rising very slightly yesterday. The weather was exceedingly unpleasant and chilly, the streets being covered with ice.

It was thawing very gradually, but not enough to free the river from its icy extent. Operations were continued, but still produced the desired effect.

We may now report everything ready for a movement in the ice whenever it takes place.

The Evening Journal of Friday says: Last evening the channel in the Kentucky side of the river had again washed out, and there seemed a strong probability of a breaking away of the gorge during the night.

There was a strong probability of a breaking away of the gorge during the night. The ice was breaking up, and the water was rising.

**From the Evening Bulletin.**

**THE HAVRE STRIKE AT ENA.**

It is all current in Paris, and the strike is permitted to participate in the conference. Prince Gortchakov, when signing the protocol of the conference, stated that the conference had been invited to a position.

Count Bortolotti supported the demand, but Bortolotti and Sir H. Seymour wished to refer the matter to the conference of the future. It had not reached the conference at the latest date.

Disturbances were created at St. Petersburg by a serious military conspiracy reported at Madrid, with ramifications through the north of Spain. The particulars are not given.

The conference in peace is daily increasing. The National Convention continued in session till 2 o'clock this morning.

After a stormy debate the vote was taken on the report of the committee, and was adopted. Mr. Pickett, of Tennessee, denounced the conference and the strike, and called for a vote, declining to take any further part in it.

Mr. J. D. Ingham, of Virginia, threatened the Southern members to go to the conference, and the Southern members to go to the conference, and the Southern members to go to the conference.

A motion was made that the delegates from Louisiana be admitted to the conference, and the delegates from Louisiana be admitted to the conference.

The Nashville stage, due at 7 o'clock last night, did not get in till about 10 o'clock this morning. The delay was caused by the fact that the stage was stuck in the ice.

A dinner was tendered to Hon. Geo. M. Dallas by many of the most influential citizens of Philadelphia, but was declined by him.

**NEWS ITEMS.**

**Appointment Declined.**—Mr. J. A. Jacobs, Principal of the Kentucky Institution for the Deaf and Dumb, has received a declined the appointment of the Kentucky Institution for the Deaf and Dumb at Jacksonville, which is \$1,500 more than he receives, and is the second time the situation has been declined.

**The Last Spoke.**—The Rock Island Advocate of the 19th inst. says that the workmen were busy engaged on Monday in putting up the last spoke of the Mississippi bridge, reaching from the foot of the bridge to the river.

The river was rising steadily this morning. Last evening it was about at a stand with 6 feet of water in the canal.

We have no news from below. A report was current on Saturday that the steamer Ochs had got up to within fifteen miles of Portland, but we could trace it to no reliable source and believe it to have been unfounded.
